Array Battle

## Array Battle

## Materials:

- Array cards (with the multiplication expression on the array side ex. $2 \times 3,3 \times 2$; an the product on the blank, reverse side ex. 6)

## Directions:

1) Deal out all of the array cards, totals face down.
2) Players compare their top array card (still total side down) to see which is larger (has the most squares) without counting by l's.
3) The player with the larger array takes the cards.
