

Coordinate Grid

Switch

Coordinate Grid Switch

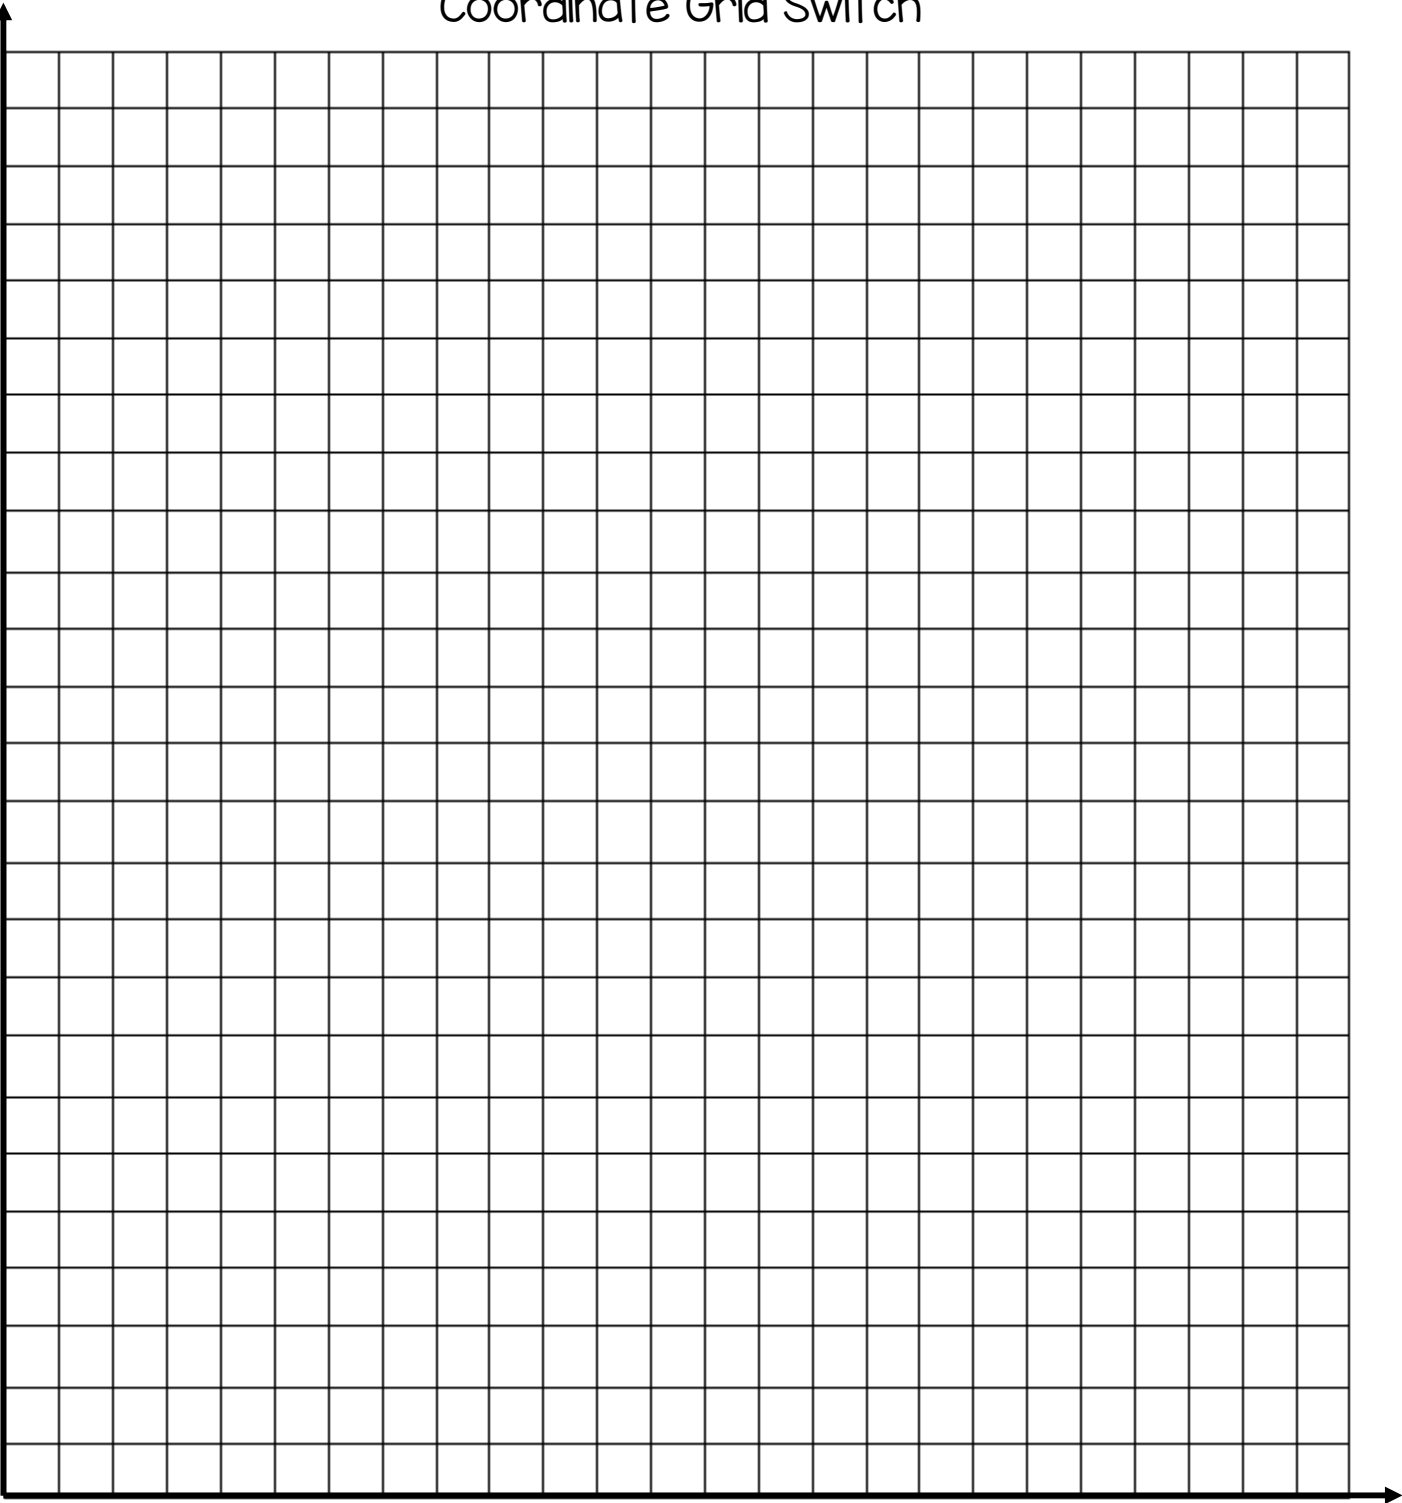

Materials:

- Coordinate grid paper
- Ruler
- Paper

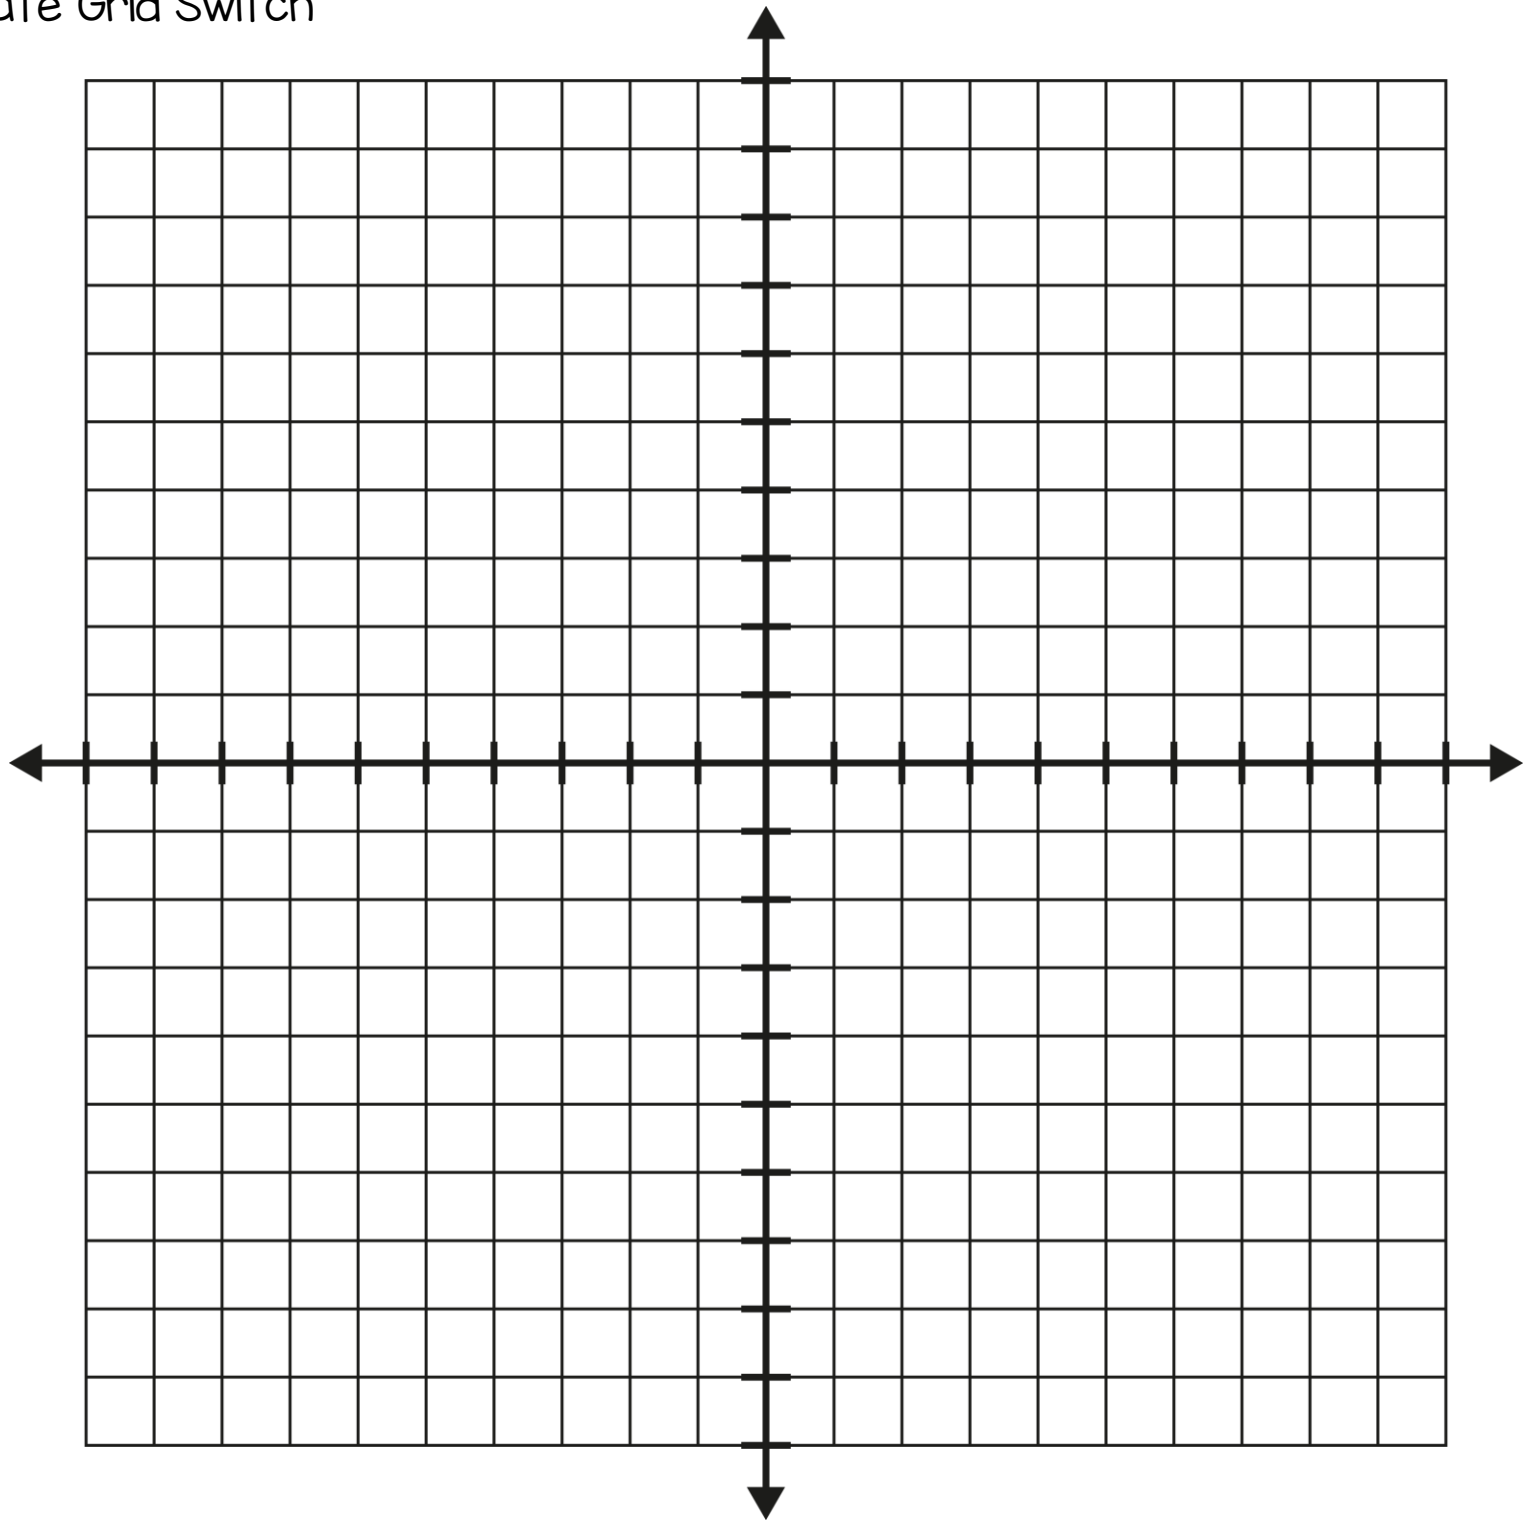

Directions:

- 1) Each partner will create a polygon on coordinate grid paper. Remember to have all vertices of your polygon on an intersection of the x-axis and y-axis!
- 2) List the coordinates for your polygon on a blank piece of paper.
- 3) Exchange coordinates with your partner and try to recreate his/her polygon on your coordinate grid paper.
- 4) Compare your recreated polygon with the original polygon that your partner created.
- 5) Repeat steps 1-4.
